## USB to Serial Adapter

Driver Installation Guide

**SEWELL**  
SEWELLDIRECT.COM

### **Windows 98SE (Second Edition)**

---

1. Plug the adapter into a USB port on your computer. Insert the Driver CD into your CD drive.
2. Windows will search for the new device. When the **Add New Hardware** dialog box appears click **Next**.
3. Select **Search for the Best Driver for Your Device** and click **Next**.
4. Select **Specify a Location**, click **Browse** to locate the driver. The driver is located in **D:\Driver\Windows\** (where **D:** is the letter of your CD drive). When you have located the driver click **Next**.
5. Windows will search for the driver in that location. Click **Next** to install.
6. When the system shows **Windows has finished installing the software that your new hardware device requires** click **Finish**.

### **Windows ME**

---

1. Plug the adapter into a USB port on your computer and insert the Driver CD into your CD drive.
2. Select **Specify the location of the driver**, and Click **Next**.
4. Select **Specify a Location**, click **Browse** to locate the driver. The driver is located in **D:\Driver\Windows\** (where **D:** is the letter of your CD drive). When you have located the driver click **Next**.
4. Windows will search for the driver in that location. Click **Next** to install.
5. When the system shows **Windows Has Finished Installing the New Hardware Device** click **Finish**.

### Windows 2000

---

1. Plug the adapter into a USB port on your computer. Insert the Driver CD into your CD drive.
2. Windows will search for the new device. When the **Found New Hardware Wizard** appears click **Next**.
3. Select **Search for a Suitable Driver for My Device** and click **Next**.
4. Select **CD-ROM drives** and click **Next**.
5. Click **Next** to install.
6. When the system shows **Windows has finished installing the software for the device** click **Finish**.

### Windows XP

---

1. Plug the adapter into a USB port on your computer. Insert the Driver CD into your CD drive.
2. Windows will search for the new device. Select **Install from a list or specific location** and click **Next**.
3. Select **Search for the Best Driver in These Locations**, and select **Search removable media**. Click **Next**.
4. When system shows **The wizard has finished installing the software** click **Finish**.
